Fly Away Home tells the story of a young teenager, Amy, who goes to live with her father in Canada after her mother is killed in a car accident.

Amy and her mother had been living in New Zealand for nine years. Father and daughter have nothing in common and have difficulty in communicating. Amy is very miserable in this new home, until one day she finds some abandoned goose eggs. She rescues them, creates an incubator in the garage, and waits for them to hatch. It is a well known fact that the first living thing a baby goose, or gosling, sets eyes upon will be recognized to be its mother. Amy thus becomes a surrogate mother to sixteen baby geese, and begins to enjoy life again as she rears her brood through the summer months.

However, there is a cloud on the horizon. As the geese get older, a local ranger wants to clip their wings so that they cannot fly. The ranger thinks that the birds will die as, without other geese to teach them, they have no way of learning how to fly south for the winter. However, Amy and her father are outraged at the thought of mutilating the geese, and are worried that if the geese stay in Canada, a cold winter could kill them. Using Amy’s influence on the geese, and her father’s talent for inventing machines, Amy and her father together work out a plan to teach the birds to fly.

‘Fly Away Home’ is based on the true story of Bill Lishman, who taught geese to fly. Apart from the addition of a distraught teenage girl to the story, ‘Fly Away Home’ follows Lishman’s story fairly closely. In his autobiography, Lishman describes the methods he used for teaching his geese to fly. He recorded familiar sounds that the geese would recognize, and used a hang glider and a motorized glider resembling a goose to encourage the birds into the air. The character of Amy’s father is based on Lishman.

In the film, Anna Paquin, a young teenage actress, plays the part of Amy. Anna won the Best Supporting Actress Oscar in ‘The Piano’ in 1993 when she was just 12 years old, and was chosen by the producers of ‘Fly Away Home’ because of this success. Co-producer of ‘Fly Away Home’, Bill Veitch, says that Anna is a natural actress and that naturalness is one of the prime qualities of ‘Fly Away Home’. Jeff Daniels plays the part of Anna’s father, Thomas. Dana Delany refused a part in ‘Independence Day’ so that she could play Susan Barnes, Thomas’s girlfriend.

The theme of motherhood runs strongly throughout the story. It is Amy’s maternal instinct that is aroused by the defenceless goose eggs, and it is the act of mothering the goslings that helps Amy to cope with the loss of her own mother, and find happiness once more.

The theme of isolation is also strong in ‘Fly Away Home’. Amy is lonely and withdrawn when she arrives in Canada. She feels isolated at home, and is unable to communicate with her father, whom she considers to be crazy. She also feels isolated at school, where she is different and unwilling to socialize, which causes people to laugh at her. Her father’s house is in a remote spot. ‘There was nothing there, only trees, and fields and hills, no people or houses.’ This isolation is new to Amy, and at first she cannot adjust to the quietness.
When Amy rescues and hatches the goose eggs, she finds an outlet for her grief and love. She feels an affinity with the motherless eggs and becomes their mother. Slowly the feeling of isolation begins to disappear, as she becomes involved with the welfare of her geese.

In Fly Away Home, human relationships are developed through animals. Through Amy's love for her geese, she learns more about her father and the other people around her. She begins to accept them, and becomes more willing to accept their friendship because they show that they love her geese.

Most importantly of all, the mutual understanding and fierce determination to save the birds gives Amy and her father a bond on which to build a strong and lasting relationship.

The following teacher-led activities cover the same sections of text as the exercises at the back of the reader, and supplement those exercises. For supplementary exercises covering shorter sections of the book, see the photocopiable Student's Activities pages of this Factsheet. These are primarily for use with class readers but, with the exception of discussion and pair/group work questions, can also be used by students working alone in a self-access centre.

ACTIVITIES BEFORE READING THE BOOK
Put students into small groups. Ask them to look at the front cover of the book and the first photograph. Ask students to guess answers to these questions (pre-teach guess): Who are the people in the photo? Are they from the same family? What will happen in the book? If students have seen the film ask them not to answer these questions until other students have answered them. Then ask them to tell the other students the answers.

ACTIVITIES AFTER READING A SECTION
Chapters 1-6
On separate cards write the names of the people and things in the book. On other cards write what they feel (for a person) and what they look like (for a thing)
E.g. Amy - I want Mum
Amy's new home - there are fields and hills all round
Photocopy the pairs of cards if necessary so that each student can have one card. Give one card to each student, and ask students to walk around and find the person with the card that matches their card.

Chapters 7-14
On separate cards write five or six short sentences about the things that happen in each chapter. Divide the students into groups and give each group the cards for one chapter. Students put the cards in order of what happens. They then read out their cards - the group with Chapter 7 cards reads first, then those with Chapter 8 and so on. The whole class discusses whether all cards are in the right order.

Chapters 15-21
Write these chapter titles on the board.
No Geese at Home The Soap Machine
Yellow Machine Mabel Helps
Mother Goose Problems with Igor
In small groups students put the titles in order and say what happens in each of these chapters. They can look in their books to help them.

ACTIVITIES AFTER READING THE BOOK
Divide students into small groups. Each group writes down three things that make Amy sad at the beginning of the book, and three or more things that happen to make her happier as the book goes on. Ask each group for their answers and write them on the board.

It will be useful for your students to know the following new words. They are practised in the Before You Read sections of exercises at the back of the book. (Definitions are based on those in the Longman Active Study Dictionary.)
