Hingham, Massachusetts
## Contents

### Acknowledgments

### Introduction

- What This Book Is About
- What This Book Includes
- A "Genre Agnostic" Approach
- So What Are You Waiting For?

### I Introduction to Level Design

1. Game Design
2. Level Designers
3. Anatomy of Level Design
   - Art
   - Design
   - Engineering
4. Defining Levels
5. Brief History of Levels
   - Creating Pinball—The Mother of Level Design
   - From Pinball Machines to Super Computers
   - In the Beginning There Was Space War
   - The Rise of Home Computing
6. Level Design Today
   - Overcoming Memory Constraints
7. Narrative Chapters
8. Dividing the Workload
9. Summary

Interview with Richard "Levelord" Gray of Ritual Entertainment 12

2 Building a Simple Level 15
   Level Design Building Blocks 16
   What About Story? 18
   Putting It All Together 18
      Concept 18
      Environment 19
      Beginning 19
      Ending 20
      Goal 20
      Challenge 21
      Determining the Challenge Mechanics 22
      Reward 26
      Failure 26
   Summary 26

3 Team Roles and the Pipeline 29
   Development Teams 30
   Management 31
      Producers 31
      Project Managers and Assistant Producers 31
      Creative Director 31
      Leads 32
   Design 32
      Game Designers 33
      Level Designers 33
      Systems Designers 33
   Art 34
      Modelers 34
      Animators 34

Contents

Music and Sound 102
Risks and Rewards 103
Rewards in General 103
Scripted Gameplay 104
Using Artificial Intelligence 105
  States of Being 105
  Decisions, Input and Output 106
  Pathing and Patrols 107
Level Gestalt 109
Summary 109
Interview with Harvey Smith 110

6 Common Level Design Limitations 121
  Technical Limitations 122
    Memory 123
    Processing Power and Frame Rate 124
    Level Performance 124
    Polycount and Performance 125
    Level Lighting 127
    Artificial Intelligence 128
    Media Format 134
    Target and Minimum Specs 135
  Environmental Limitations 136
    Locations 137
    Environmental Settings 137
    Creating a Reference File 139
    A Final Word: Constraints in Licensed Games 139
    Summary 139

7 Designing and Documenting the Level 141
  Game Metrics 142
Different Metrics for Different Games 144
   Powerups and Temporary Modifiers 144
   User-Definable Metrics 145
   Permanent Modifiers: Upgrades, Equipment, and Environmental Aids 146
Generating Gameplay—Brainstorming and Loose-Leaf Ideas 146
The Cell Diagram 148
War Rooms 149
Creating a Paper Design 150
   Getting Started 151
   Adding Details to the Level Draft 151
Choosing Your Design Environment 160
Supporting Documents 160
   The Asset List 160
   The Walkthrough 161
Conceptualizing Your Level with Visuals 162
Reviews and Revisions 163
Getting the Sign-Off 165
Summary 165
Interview with Ian Fischer of Ensemble Studios 166

8 Using a Level Editor: Building a 3D Space in UnrealEd 171
   Installing and Opening the Editor 172
   Starting a New Map 173
   Undo and Redo 175
   Viewing the Level in UnrealEd 175
   Moving and Working in Three Dimensions 177
   Camera Movement Controls in the Editor 177
      3D View 178
      Top, Front, or Side Views 178
   Working with Level Geometry 178
      Different Geometry Types in UnrealEd 179
      BSP 179
Building the Level Hull in BSP 183
What Is a Brush? 183
What Is the Builder Brush? 185
Creating a Builder Brush 185
Placing Actors 187
The PlayerStart Actor 188
Adding Lights 190
Testing the Level 192
Loading Textures 193
Units of Measurement 195
Apply the Texture to the Level 196
Moving Actors in the Level 197
Moving Actors in the 3D View 198
Moving Actors in the 2D View 198
Adding a Static Mesh Actor 198
Changing the Build Parameters 200
Adjusting and Duplicating BSP 201
A Final Word on Grids, Snapping, and Clean Geometry 204
Summary 205

Building the Level Part 1: Basic Building Techniques 207
Restrain Yourself 209
The Difference Between 2D and 3D Levels 209
The Whitebox Process 210
Whiteboxing the Level Hull 212
Scale 213
Scale Problems in Third-Person Titles 213
Volume 216
Quality 217
Popular Level Building Approaches 223
Common Light Types
Level Lighting Techniques
Lighting in Multiplayer Levels
Common Lighting Mistakes
Placing Props
Additional Visual Elements
Summary
Interview with Mathieu Be"rube of Ubisoft Entertainment, Inc.

11 Building the Level Part 3: Theme, Investment, and Atmosphere

Dissonance Strikes Back
The Elements of a Great-Feeling Level
Theme
  Style
  Natural Elements
  Sound and Music
  Character Accents and Costume
/
  Lighting
Puzzle Components
AI Behavior
Weapons and Items
Player Investment—Believability and Consistency
  Provide Real-Life Services
  Give Your NPCs Life Beyond Their Purpose
  Don't Mistake Realism for Immersion
Atmosphere
  Letting the Player's Imagination Do the Work
  Atmospheric Audio
Summary
An Interview with Rich Carlson of Digital Eel
12  A Case Study: The CIA Level from *Tom Clancy's Splinter Cell* 305

   An Introduction to *Splinter Cell* 306
   
   The Team 307
   
   The Pipeline 307
   
   Creating the Level Design Structure 307
       
       Mission 2.1—The CIA 308
   
   Assembling Reference 312
   
   The Design Process 315
   
   Building the CIA from Scratch 318
   
   The Danger of Unknown Metrics 320
   
   Shifting Technical Limitations 320
   
   Reducing the Scope 321
   
   Cutting Back on Content 321
   
   Resuming Production 323
   
   Cleaning Up 324
   
   Scripting 325
   
   Tuning 327
   
   Adjusting the Difficulty 327
   
   Wrapping Up 328
   
   Summary 328
       
       What Went Wrong 328
       
       What Went Right 329

13  Final Word 331

   The End of the Beginning 332
   
   Where to Go Next 332
   
   Books 332
